Software Engineer with 5+ years of experience building scalable cloud-native systems, blockchain networks, and data-driven trading tools. Proven ability to design and deploy high-performance Django/FastAPI/React and Python-based architectures across finance, energy, and supply chain sectors, serving 5,000+ users. Skilled in quantitative system optimization, algorithmic workflows, and data pipeline design for real-time analytics.

PROFESSIONAL EXPERIENCE

Quantitative Hedge Fund | New York, US | Consultant - Quantitative Software Engineer | 09/2025 – Present

- **Collaborated** with trading, operations, and technology teams to design scalable internal software solutions, aligning quantitative strategies with technical infrastructure.
- **Enhanced** the firm's **Order Management System (OMS)**, improving execution latency and reliability across high-frequency trading pipelines.
- **Identified and resolved** key system bottlenecks, boosting **application availability** and **throughput** in high-volume trading environments.

Wings ICT Solutions | Athens, Greece | Blockchain & Data Engineer | 04/2023 – 05/2025

- **Architected scalable private blockchain network systems**, using **Hyperledger Besu**, implementing custom smart contracts (Solidity) and permissioned consensus mechanisms for enhanced supply chain transparency and integrity.
- **Implemented Flask-based RESTful microservices** to expose 20+ endpoints for blockchain interaction layers, enabling faster retrieval and analytics.
- **Orchestrated serverless data ingestion** using **Azure Functions** and **API Management**, unifying 7 distinct sources into a single **MongoDB** datastore, resulting in a 50% reduction in data latency and reducing infrastructure costs by 25%.

Evolution Projects Plus | Athens, Greece | Full Stack Engineer / Product Manager | 09/2020 – 04/2023

- **Delivered a Django-based Waste Data Management System** using, **MySQL**, and **ML forecasting**, forecasting waste volumes with 92% accuracy using Scikitlearn models; adopted by 45+ municipalities.
- **Led end-to-end product development of award-winning enterprise platform**: a **ReactJS**, **Python FastAPI**, and **PostgreSQL**-based **Dynamic Workflow Management System** for DEDA S.A., scaling to 5,000+ unique users and managing **10,000+ user applications**.
- Built multi-platform energy complaint portals (RAE) and real-time geospatial fault systems (Mytilineos) using **PostGIS** and **Leaflet.js**, along with **ReactJS**, **Python FastAPI**, **PostgreSQL** and **Redis**, handling 2,000+ field tickets.

Liquimar Tankers Inc. | Athens, Greece | IT & Network Analyst | 06/2018 – 04/2020

- **Maintained enterprise IT systems** (Windows Server, Active Directory); implemented firewall/VPN policies to secure network infrastructure.
- **Conducted stress tests** simulating 100+ concurrent VPN sessions, ensuring 99.9% uptime during COVID-19 remote shift.

Vision TV Entertainment | Athens, Greece | Cofounder & Lead Engineer | 06/2016 – 04/2017

- **Conceptualized and created an innovative OTT content delivery platform** using **Python**, **Linux**, and **Raspberry Pi**, pioneering a new television model for the Greek market.
- **Integrated platform** into one of Greece's largest telecom networks.

SKILLS

Languages: Python, C/C++, Go, Rust, SQL, JavaScript/TypeScript

Frameworks: Django, Flask, FastAPI, ReactJS, Next.js, Flutter

Blockchain: Hyperledger Besu, Ethereum (Solidity), Solana (Rust), Hardhat, Foundry

Data & ML: Pandas, Numpy, Scikit-learn, PyTorch, TensorFlow, Airflow

Tools: Git, Docker, PostgreSQL, MySQL, MongoDB, Redis, Prometheus, Grafana

Foreign Languages: Greek (Native) | English (C2) | German (B1)

EDUCATION

MSc in Data Science & Information Technologies

National and Kapodistrian University of Athens, Greece

- Specialization: Big Data & Artificial Intelligence

BSc in Informatics and Telecommunications

National and Kapodistrian University of Athens, Greece

- Top 3 freshman student award
 - Upper Second Class Honors (2:1)
 - Member of Student Council
-

ACCOMPLISHMENTS & CERTIFICATIONS

- 2025 | Specialization in Machine Learning for Trading | Coursera / Google Cloud
- 2025 | Quantitative Finance & Algorithmic Trading in Python | Udemy
- 2024 | Ultimate Rust Crash Course | Udemy
- 2024 | AI Engineering Professional Certificate | Coursera / IBM
- 2022 | “Best Information System & IoT Application” Award for Dynamic Workflow Management System (DEDA S.A.)
- 2017 | Top3 Startup | Athens Startup Weekend
- 2016 | Speaker | 18th InfoCom World Conference | Presented my cofounded startup, Vision TV Entertainment
- 2008 | 3rd Place | Hellenic Society of Mathematics “Thalis” Contest
